OENOTECHNICAL PUMPING SOLUTION

A COMPLETE RANGE DEDICATED TO QUALITY OENOLOGICAL TRANSFERS

THE VOLUMETRIC LOBE WINE PUMP,
SLOW ROTATION SPEED TO RESPECT THE PRODUCT

Touch
screen control

Standard mobile chassis
in stainless steel

Electric motor
with VF IE3

Macon, Din, Clamp
input and output

Electromagnetic or
mass flow meter

Solid ou pneumatic wheels

HIGH QUALITY LOBE PUMPS, BORN IN THE HEART OF THE WINERY

The VSP lobe pumps have been specially developed for the wine and spirits industry to meet the requirements of winegrowers and distillers. Always with a view to preserving the transferred products. They greatly facilitate transfers to the winery and secure the product through intelligent control

HYGIENE

Tool-free disassembly for complete body emptying and perfect hygiene*

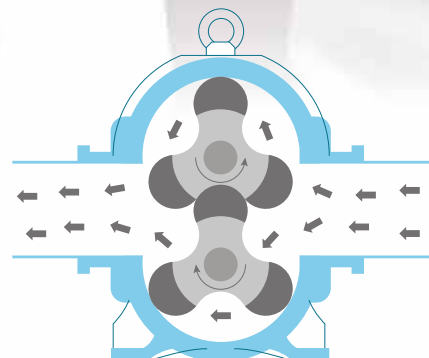

Lobes for every application

OPERATING PRINCIPLE

REVERSIBLE ROTATION

VSP lobe pumps transfer your wines and spirits with the utmost respect. The helical shape facilitates dynamic fluid flow and their volumetric principle gives them a high transfer performance

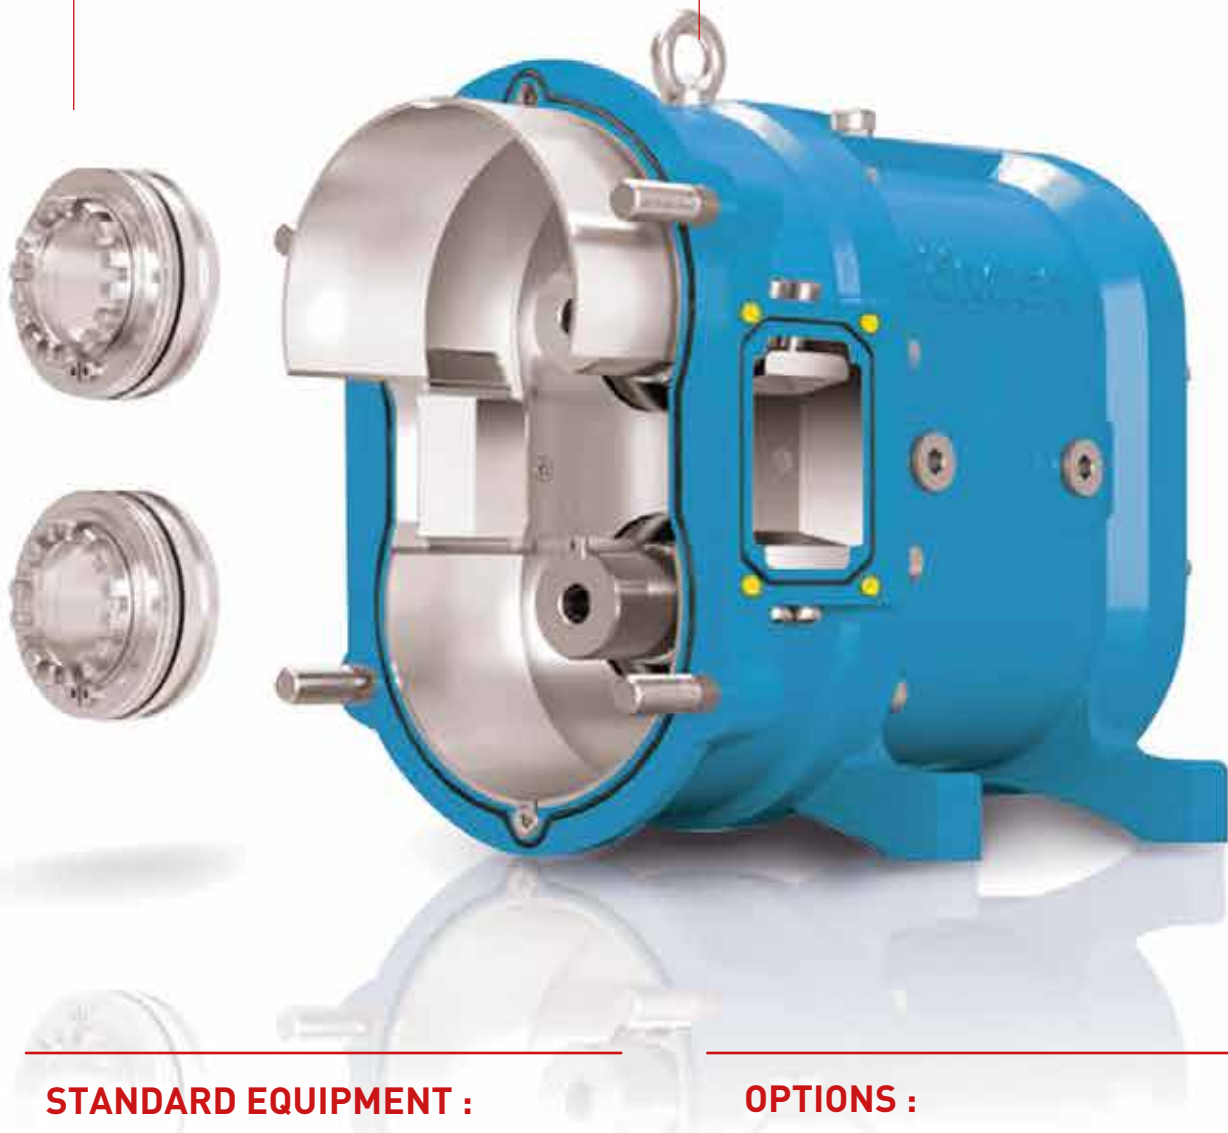

* No disassembly without tools on vertical pumps

DYNAMIC SEALING

Mechanical seals available with EPDM or VITON seal

INTEGRAL 316 TI PUMP CASING LINER (option)

The pump casing is lined with ½ radial shells ensuring complete shielding. This armouring provides increased protection against abrasion. In case of wear, the axial and radial plates can be changed in a few moments. This protection provides an extremely long service life

STANDARD EQUIPMENT :

- Touch screen
- Radio control (direction of rotation faster / slower)
- Automatic speed control upstream and downstream of the pump (œnotechnical)
- Funelling
- Drawing

OPTIONS :

- Motorised valve
- Liquid presence
- Electromagnetic volumeter (wine)
- Volumetric mass meter (alcohol)
- External steering

Vertical frame pumps

- Space saving
- Workstation ergonomics

Touch screen control

Electric motor with VF IE3.

Standard mobile chassis in stainless steel

Macon, Din, Clamp input and output

Pneumatic wheels for outdoor

Stand-alone flow meter

- Mass flow meter on cart
- Portable flow meter
